

Recycled Mixed Plastic specification Kedel Ductile

Specification		
Description	Manufactured from 100% high quality recycled mixed plastic waste, from post industrial and consumer use, and contains non toxic selected process additives providing colour and rigidity. Products of Kedel ductile have high impact resistance. The textured surface of these products gives an attractive finish.	
Production Process	The polymer is blended and fed under high temperatures and pressures into moulds.	
Finish	The surface is evenly coloured and has a textured appearance.	
Properties	 → Maintenance free → Durable → UV resistant → Splinter free → Frost proof → Impervious to fungi and insects → Does not leach toxic substances 	 ◆ Wear resistant ◆ Acoustic sound proofing ◆ Resistant to most chemicals ◆ Will not rot ◆ Environmentally friendly ◆ Insulating ◆ 100% recycled and recyclable ◆ Shock resistant and flexible
